May 2008 Book Blurb™

We welcome Michigan author Justin Ferriman. His book, **The G Word**: A Tool for Discussing The Taboo Topic. He provides unwavering confidence in the existence of God. Justin Ferriman arms readers with understandable historic and contemporary arguments proving the reality of God without one specific tool: the Bible.

The G Word takes a unique approach to traditional apologetics with everyday language and logic as the foundation for readers to strengthen their faith and effectively discuss their views of God with others. Through clear-cut reasoning, Ferriman's commentary will make even the strongest non-believer question their stance, opening lines of dialogue for all truth seekers. Overwhelmingly empowering, *The G Word* enriches beliefs, strengthens faith, and renews passion for truth as found through God and His presence in the world. Please come and meet the author on May 3 and have your book autographed! Please stop by our store to purchase this \$8.99 book that you can enjoy reading and discussing with others.
